The EnCorvette Review

Lancaster County Corvette Club

Volume 48, Issue 5

President's Message

Mary Anne Lewandowski

Hello Friends!

I trust that this May Edition of our newsletter finds you all doing well. Isn't Terri Hollis doing a great job with this?! By now most of you have had your Corvette out at least once this Spring. Have you been able to escape the 'confetti' falling from the beautiful flowering trees? It seems that every time I pull into my garage, there are a few of those pesky petals from the cherry or pear trees!

In addition to our monthly Club and Board meetings this month, we have the Texas Roadhouse (2317 Lincoln Highway East) dinner benefitting Clare House on Tuesday, May 19. Remember that you MUST have a copy of the flyer with you - either printed or as an image on your phone - to show the wait staff for Clare House to receive their benefit. Texas Roadhouse is open from 3:00pm to 10:00pm on Tuesdays. I hope to see you there!

We also have the following parades on Memorial Day Weekend: May 23 rd Mt. Joy Parade, May 24 th Columbia Memorial Parade, May 25 th Marietta Parade, and Maytown Memorial Day Parade! Come on out and support your club if you can.

Wishing you all lots of sunshine and smooth, windy roads to enjoy!

Motor On!

Mary Anne Lewandowski

RAFFLE CAR

This year it's Blade Silver Metallic...

The 2026 Raffle Car has been acquired from Ciocca Corvette by Lance Miller. This year the car is well appointed with some notable options including the Front Lift Adjustable Height, GT2 Bucket Seats, 20-Spoke Forged Aluminum Gloss Black Wheels, Sueded Microfiber-Wrapped Steering Wheel, and Low Rear Spoiler and Front Splitter. It is again a 2LT Coupe and it has a jet black interior. You can start talking it up and getting ready to sell all 1000 tickets again this year.

For those who are new to the club, we have the good fortune to run the operations of this annual raffle on behalf of the Chip Miller Amyloidosis Foundation. All the proceeds go directly to our two charities, the Chip Miller Amyloidosis Foundation and The Clare House. Remember, this is not our raffle, we just run it for the Miller organization with the help of The Clare House staff. For that work, they are gracious enough to give half the proceeds to our charity, The Clare House. Our club does not keep any of the funds. This event raises the most money by far for our charities and it takes a lot of help to make it successful each year.

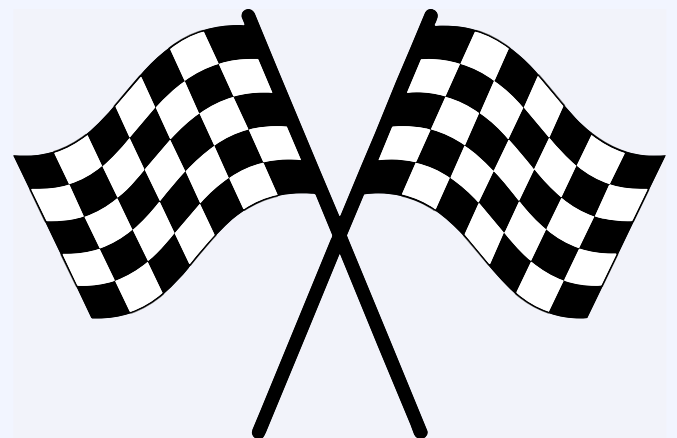

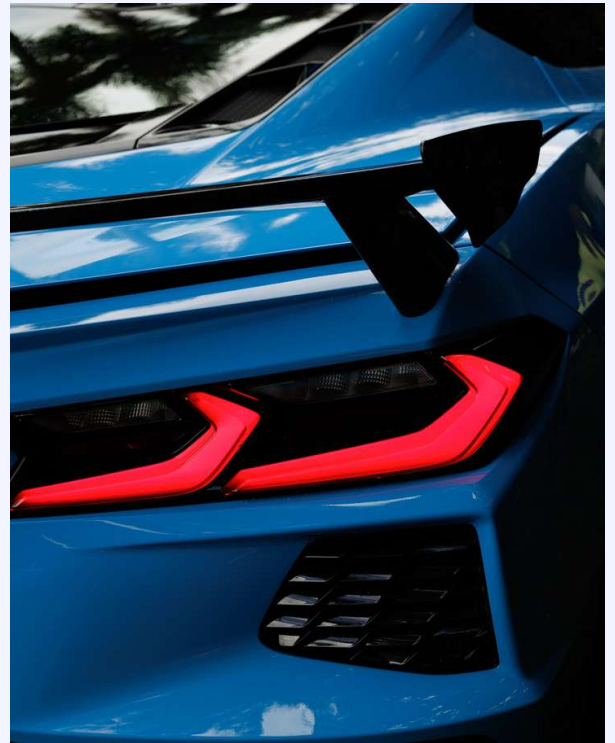

We sell in three main ways, 1) Individual sales, 2) through the mail, 3) at shows—the biggest being the Corvettes at Carlisle Show. We ask each member of the club to sell or buy tickets. If each member buys 1 and sells 1, we would reach 20% of our goal. Because we are well known for this raffle, customers seek us out to get their tickets. However, since we are not sure what the weather will be like at our last and biggest event, we need to sell as many as we can before that Corvettes at Carlisle weekend. Lisa and I will have a lot more information as things progress. For now, here are things to remember:

- Tickets are \$150 each*
 - The drawing to determine the winner is the 7PM drawing of the PA Pick 3 on Saturday August 29, 2026.*
 - We need EVERYONE to help buy or sell tickets.*
 - Sign-up sheets are going around at our General Meeting for the 3 events where we need help: the envelope stuffing, the GM Nationals selling, and the Corvettes at Carlisle selling.*
- There are multiple opportunities to help, just let Lisa and I know how you want to be involved.*

**Thanks!!
Tony and Lisa DeFelice**

The One and Only 1983 Corvette:

A New Chapter in Corvette
History at the National
Corvette Museum

Bowling Green, KY - In the world of Corvette, every generation tells a story of innovation, performance, and bold engineering. But one model stands alone as both an anomaly and a cornerstone of Corvette history: the one and only 1983 Corvette. Now showcased in a newly enhanced exhibition in the Skydome at the National Corvette Museum, this singular vehicle represents a pivotal turning point in the evolution of America's Sports Car.

Why There Was No 1983 Corvette

To understand the significance of the 1983 Corvette, you have to go back to a moment of transformation. The early 1980s marked the transition from the C3 generation to what would become the groundbreaking C4. Chevrolet engineers were reimagining Corvette from the ground up with a focus on advanced aerodynamics, improved handling, and cutting-edge technology.

The result was a radically new design that would define Corvette performance for years to come. However, delays in development and the need to meet new emissions and quality standards meant that production timelines shifted. Rather than release a car that did not meet expectations, Chevrolet made a bold decision. There would be no retail production for the 1983 model year. Instead, the all-new Corvette would debut as a 1984 model.

The Prototype That Survived

While no 1983 Corvettes were sold to the public, a small number of pre-production prototypes were built for testing and validation. Most were ultimately destroyed as part of standard GM procedures.

The One and Only 1983 Corvette:

A New Chapter in Corvette
History at the National
Corvette Museum (continued)

Only one survived.

That vehicle now lives at the National Corvette Museum, preserved as a defining artifact in Corvette history. This lone example offers a rare, unfiltered look at the transition into the C4 generation. It captures the engineering ambition, the risks, and the relentless pursuit of excellence that define Corvette.

A Closer Look at the 1983 Corvette

- A fully redesigned chassis focused on handling precision and structural rigidity
- An advanced digital dashboard that signaled Corvette's leap into modern technology
- Improved aerodynamics with a sleeker, more angular body design

Early iterations of performance systems that would define the C4 era
This car represents the bridge between classic Corvette heritage and a new generation driven by innovation.

Preserving the Legacy of America's Sports Car

The story of the 1983 Corvette is a reminder that progress is not always linear. Sometimes, the most important chapters are the ones that never officially made it to the road. At the National Corvette Museum, that story is preserved, protected, and brought to life for enthusiasts, historians, and future generations. The one and only 1983 Corvette stands as proof that even the rarest moments in Corvette history have a place here.

Plan Your Visit

Experience the one and only 1983 Corvette in person and explore the evolution of America's Sports Car at the National Corvette Museum in Bowling Green, Kentucky. From early classics to modern performance icons, the Museum's exhibitions connect the past, present, and future of Corvette in one destination built for enthusiasts.
